

SATU SOFT

COMPANY PROFILE

WHY ENTERPRISE RESOURCE PLANNING (ERP) ?

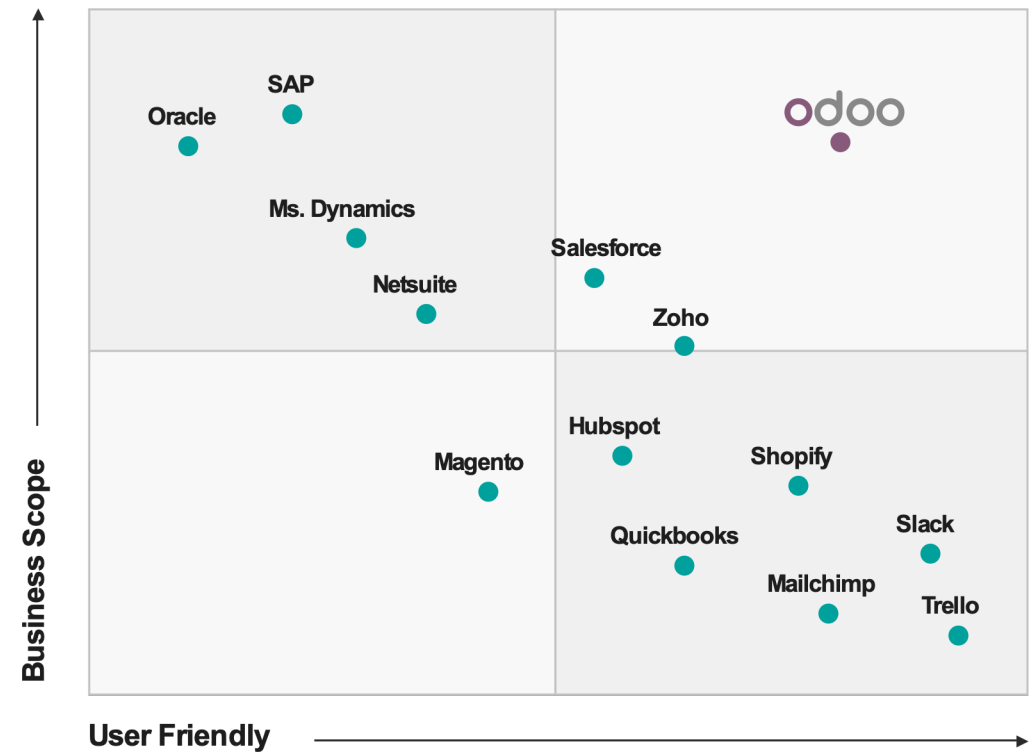

ONE SOLUTION FOR ALL YOUR BUSINESS NEEDS

- Think about all the processes required to run a company: finance, HR, manufacturing, supply chain, procurement, and others.
- Traditionally these processes have difficulty talking to each other because they have different architecture and don't share a single database.
- ERP integrates these processes into a single system with a single database.

ERP LANDSCAPE

- The open source model of Odoo has allowed it to leverage thousands of developers and business experts to build hundreds of apps in just a few years.
- Odoo's framework is unique because it provides top notch usability for small, medium, and large corporations.

ABOUT ODOO ERP

- Odoo ERP covers all your business needs in a one-stop solution. Odoo apps are perfectly integrated to each others, allowing you to fully automate your business processes.
- Here are some facts about Odoo:
 - 3.9 million users
 - 120+ countries
 - 14,300 apps
 - 950 partners

WHY CHOOSE SATU SOFT ?

OUR SERVICES

- We are a software solution company that offers single solution for all your business needs in the form of Odoo ERP.
- Some of our services are:
 - Odoo Consulting
 - Odoo Deployment and Implementation
 - Odoo Hosting (Cloud Based/On Site)
 - Custom Module Development

OUR PROCESS

1. Business Analysis

- We analyze current business process and system. Next we will propose the estimation of time line and budget with the customer.

2. Features Analysis

- We delve deeper into the specific Odoo modules that the business needs. If necessary, we will propose custom modules.

3. Prototyping

- We develop prototype to test out the features and make modifications to the plan as required.

4. Finalized Features

- At this stage, we should get enough feedback from the prototype to be able to finalize the features.

5. Development

- We develop custom modules, migrate data from old system, and setup the hosting (cloud based/on site).

6. Deployment

- This final stage consists of employees training and using Odoo, and additional support if necessary,.

OUR CLIENTS

- Some of our customers are listed on the right.
- We faced various cases in these projects that equip us with wide range of experiences. For example:
 - Enterprise vs Community Implementation
 - Cloud vs On Site Hosting
 - Regular vs Custom Modules
 - Desktop vs Mobile View
